Pictures cannot do this beautiful home justice. From the minute you walk in, you will be awed at the beauty of this well maintained home. The whole home features brand new carpet, and the main level has new Luxury Vinyl Planks from the entryway, throughout the kitchen and into the dining area. The family room off of the kitchen boasts two story ceilings with plenty of windows to let in lots of sunshine. See more in Supplemental Remarks....

In addition to living area and built in desks, the basement offers 2 bedrooms and a 3/4 bath with shower. Upstairs has two more bedrooms plus a grand master bedroom. The bedroom over the garage contains a ductless mini split to help keep the room cool in the summers and warm in the winters. The backyard is a treasure to be enjoyed day or night! The sound of the gorgeous fountain will relax you as you cook on the built in grill or hang by the fire pit. The heat pump and air conditioner make the home cost efficient to heat and cool. Exterior of home has just been painted as well as most of the interior. Oh, and don't forget to notice the heated garage and the reverse osmosis water filter under the kitchen sink.
